

PROTEKTA

Engineering Worldwide, Made Simple and Reliable

Rooted in Middle East | Connected Globally

About PROTEKTA

An international engineering trade & consulting firm, Middle East-rooted, building **precise**, **reliable**, **professional** cross-border supply chains amongst Middle East, China and global markets.

“ Acting as a trusted bridge aligning international standards, regional regulations, and local execution ”

P Precision

R Reliability

O Overseas

T Trade

E Engineering

K Know-how

T Technology

A Alliance

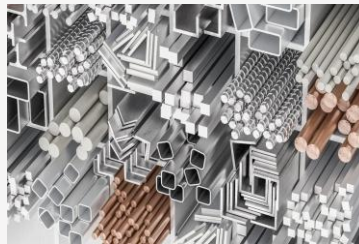

Our Three-Pillar Model

Procurement Hub

Rapidly analyze owner requirements, match with qualified global suppliers, optimize cost / lead time / risk

Supply Gateway

Design tailored Middle East market entry strategies with certification, qualification, and bidding support for manufacturers/contractors

Delivery Excellence

Full-cycle management — negotiation, logistics, quality control, risk mitigation — securing on-time, on-budget delivery

A closed-loop ecosystem connecting project owners and global manufacturers

Our Services

Comprehensive Solutions for Global Engineering Projects

Engineering Materials Trading & Supply

- Comprehensive coverage across all major engineering categories
- World-class manufacturer partnerships with rigorous qualification
- Full international standards compliance (ISO, EN, ASTM, DIN, UL/FM)

Engineering Procurement Consulting

- Full-cycle guidance from specifications to final delivery
- Independent third-party testing & full product traceability
- Risk mitigation & quality control across the entire lifecycle

Middle East Expansion & Consulting Services

- Certification & qualification pathway for the Middle East market
- Market intelligence & sustained project pipeline access
- Direct bidding support with leading Middle East project owners

→ One partner, three integrated service lines — delivering certainty across the global engineering supply chain

Engineering Materials Trading & Supply

Comprehensive Coverage

Metal & Facade Systems

SS handrail, Metal Roof System, Metal Ceiling and Cladding, UHPC, GRC and GRP

Bridge & Outdoor Landscaping

Bridge Components(Expansion Joint & Elastomeric Bearings)
Landscaping materials (Rubber tile, Bamboo wood, Aluminum Edge)

MEP & Fire Protection

MEP equipment(Valve, Pump, Soft Starter/VFD, Commercial Kitchens)
UL & FM Approved Firefighting equipment

Custom Solutions

Fully customized engineering materials

Value We Deliver

Strategic Partnerships

World-class manufacturer collaboration

Rigorous Qualification

Supplier qualification & continuous review

Full International Compliance

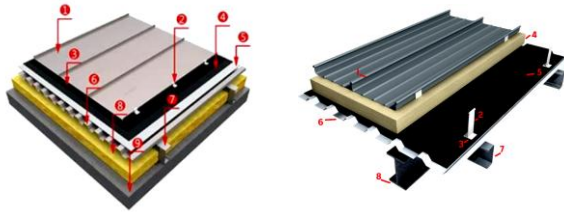

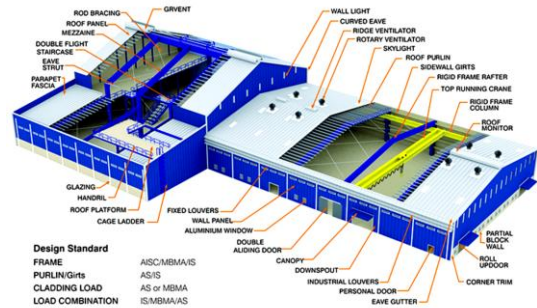

ISO, EN, ASTM, DIN, UL/FM, NFPA, BS, AAMA

Resilient Supply Chain

Stable global supply with local Middle East support

METAL ROOF/CLADDING/CEILING SYSTEMS

Main Application Scenarios:

1. Airport Terminal
2. Airport Hangar
3. Metro Station
4. Train Station
5. Expo Center
6. Stadium
7. Public Buildings
8. Hotels

COMPREHENSIVE CONSTRUCTION CHEMICALS

By partnering with industry-leading brands (CIC, TRITON, Weber, Saveto), we provide a complete range of high-performance construction materials and chemicals to meet all your project requirements.

1 Waterproofing & Sealing Systems

- Polyurethane & Silicone Sealants
- Liquid Applied Waterproofing Membranes
- Cementitious Waterproofing Coatings
- Crystalline Waterproofing

2 Tile & Stone Installation Systems

- High-Performance Tile Adhesives
- Tile Grouts & Joint Fillers
- Surface Treatments & Primers

3 Wall Plasters, Putties & Facade Systems

- Internal & External Wall Putties / Skim Coats
- Dry Mix Mortars & Plasters
- External Thermal Insulation Composite Systems (ETICS)
- Decorative Facade Finishes

4 Concrete Repair & Protection

- Structural Repair Mortars
- Non-shrink Grouts
- Chemical Anchoring Systems
- Anti-carbonation & Protective Coatings

5 Flooring Systems

- Cementitious Self-leveling Compounds
- Epoxy & Polyurethane Industrial Flooring
- Floor Hardeners & Sealers

6 Construction Chemicals & Admixtures

- Concrete & Mortar Admixtures
- Curing Compounds
- Formwork Release Agents

BRIDGE COMPONENTS

- MODULAR EXPANSION JOINT
- BEARINGS
- POST-TENSIONING SYSTEM(BONDED MULTI-STRAND)

VARIOUS CUSTOMIZED PUMPS

INNOVATIVE FIRE PROTECTION SOLUTIONS

Certified for Safety and Performance

Grooved Piping Systems

Fire Hydrants

FIREFIGHTING EQUIPMENT

We offer high-quality grooved piping systems and durable fire hydrants designed for optimal fire protection. All our products are proudly **UL Listed and FM Approved**, guaranteeing superior quality, reliability, and peace of mind for your fire safety infrastructure.

Our products are proudly UL and FM Approved, ensuring superior quality and reliability.

GRC/UHPC/GRG/GFRP

■ UHPC

Ultra-High-Performance Concrete (UHPC) is an advanced composite material characterized by its exceptional strength and durability, the incorporation of high-strength fibers (especially steel fibers). UHPC is widely utilized in applications demanding lightweight yet ultra-strong, long-lasting, and impact-resistant structures, such as bridges, buildings, and protective infrastructure.

■ GRC/GFRC

Glass Fiber Reinforced Concrete (GFRC) is a high-strength composite material comprising Portland cement, fine aggregate, water, glass fibers, and often polymers. It offers exceptional tensile and flexural strength, is significantly lighter than traditional concrete, and provides extensive design versatility for architectural and structural applications.

ARCHITECTURAL FACADE MATERIALS

ARCHITECTURAL METAL SOLUTIONS

We provide high-quality stainless steel and metal products for diverse architectural needs. Our range includes elegant handrails, distinctive ceiling panels, stylish bollards, custom sculptures, and sophisticated hotel lobby accents.

HANDRAIL

LADDER

CEILING

BOLLARDS

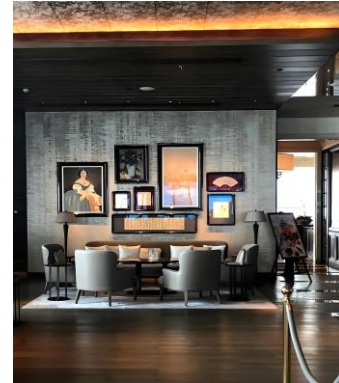

SCULPTURE

HOTEL LOBBY

We combine precision engineering with superior materials to deliver durable, functional, and aesthetically striking solutions for every project.

HOTEL FURNITURE

We specialize in providing exceptional hotel furniture solutions for five-star hotels, encompassing a comprehensive product range from **FIX FURNITURE** to **LOOSE FURNITURE**. Our offerings are distinguished by **premium materials** and **exquisite craftsmanship**, ensuring unparalleled durability and luxurious aesthetics. Through **bespoke design**, we seamlessly integrate with each hotel's unique style and high-end positioning.

HARD LANDSCAPE (RUBBER TILE)

Our comprehensive range of rubber tiles offers robust and versatile solutions for diverse hard landscape applications in commercial and public projects. Featuring tactile tiles for accessibility, resilient surfacing like brick and bone-shaped tiles, and specialized elements such as rubber tree rings and manhole covers, we provide durable, safe, and aesthetically pleasing options built for professional specifications.

HARD LANDSCAPE (GARDEN EDGING)

Middle East Expansion & Consulting Services

Designed for international manufacturers entering the Middle East market

Market Intelligence

We provide market intelligence, project information, product promotion, and assistance in obtaining bidding opportunities.

Bidding Support

We offer expert bidding support, assisting both manufacturers and contractors/subcontractors in crafting compelling and compliant tender submissions.

Pre-Qualification Assistance

We assist companies in preparing and submitting all necessary documentation and information for project pre-qualification, thereby securing their eligibility to access subsequent project opportunities.

Ongoing Representation

Tasked with market promotion, meeting organization, and maintaining continuous communication with project owners and/or contractors.

Unlock Middle East opportunities with a partner who knows the terrain

Why Choose PROTEKTA

Regional Experience

15+ years of Middle East project expertise with deep, on-the-ground understanding of owner expectations.

Supply Chain Network

Global network of top-tier manufacturers across key engineering domains.

Procurement Capability

End-to-end control from specifications to logistics and documentation.

Market Channels

Direct cooperative relationships with leading Middle East owners and robust project pipelines.

Customized Solutions

Tailored procurement and market entry strategies for each project.

Risk Management

Comprehensive risk assessment and continuous mitigation across the full lifecycle.

**In a market where contractor capacity gaps and supply chain constraints are rising,
PROTEKTA delivers certainty**

Deep Expertise in Client Requirements
